

COMPANY PROFILE REPORT

“Responsibility is not what we claim, but what we consistently do.”

Executive Summary

PT Kristalin Ekalestari is a premier integrated gold mining and refining company based in Indonesia. Operating since 1989, we manage the entire value chain from exploration in Papua to our state-of-the-art refinery in Jakarta. Our commitment to sustainable mining practices and community empowerment sets us apart as an industry leader.

Core Values

Integrity

Upholding the highest standards of ethics and transparency in all our operations.

Sustainability

Commitment to environmental stewardship and long-term community development.

Excellence

Delivering world-class quality in gold refining and product certification.

Innovation

Continuously adopting cutting-edge technologies to optimize the mining value chain.

Message from the Chairman

“Welcome to PT Kristalin Ekalestari. Since our inception, we have been driven by a singular vision: to redefine the gold mining industry in Indonesia through unwavering commitment to sustainability, innovation, and community empowerment. Our journey is not just about extracting precious metals; it is about creating lasting value for our stakeholders, preserving the environment for future generations, and uplifting the communities in Papua and beyond. As we embark on our digital transformation, we remain dedicated to transparency and excellence. Thank you for your continued trust and partnership.”

Arif Budi Setiawan

CHAIRMAN

Our Vision

To become the leading and most trusted integrated gold mining company in Southeast Asia, pioneering sustainable operations and driving socio-economic growth for local communities.

Our Mission

To operate responsibly across the entire gold value chain—from upstream exploration to downstream trading—by utilizing state-of-the-art technology, adhering to the highest environmental and safety standards, and fostering long-term partnerships.

Operational Excellence

Decades of Experience

Operating seamlessly since 1989 with a proven track record.

99.99% Purity

Certified high-quality precious metals meeting international standards.

Eco-Friendly

Implementing ISO-certified green mining technologies.

Local Empowerment

Creating thousands of jobs and supporting local Papuan businesses.

Company Milestones

1989

Foundation

Established in Papua with a focus on sustainable gold exploration and community engagement.

2005

First Refinery

Opened our first state-of-the-art refining facility in Jakarta, enabling end-to-end processing.

2015

LBMA Certification

Achieved international LBMA standard for our 99.99% gold bars, recognizing our world-class quality.

2026

Digital Transformation

Launched B2C digital platform connecting physical gold directly to investors.

Line of Business

Exploration & Upstream

Focusing on discovering high-quality primary and secondary gold reserves with strict operational standards in Nabire, Central Papua. We employ advanced geological mapping and responsible extraction methods.

- 15,000+ Hectares of exploration area
- Advanced geophysical surveying
- Zero-harm safety protocols

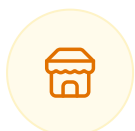

Processing & Refining

Our advanced Smelter & Refinery infrastructure processes gold ore into certified precious metal bars, achieving 99.99% purity. We adhere strictly to international LBMA (London Bullion Market Association) standards.

- 2.5+ Tons annual capacity
- Advanced smelting technology
- 100% Traceable sourcing

Downstream Trading

Connecting physical gold directly to the consumer market (B2C) through our digital platforms and strategic partnerships, offering investment-grade gold directly to the public.

- Direct B2C digital access
- Real-time pricing integration
- Insured nationwide delivery

Corporate Social Responsibility

We believe that our success is deeply intertwined with the prosperity of the communities where we operate. Through our monthly CSR programs, we provide essential food supplies, build community infrastructure, and fund educational and health initiatives in Nabire.

Environmental Stewardship

Implementing ISO 14001 standards, land reclamation, and renewable energy in mining operations to minimize our carbon footprint.

- 100,000+ trees planted for land reclamation
- 30% reduction in carbon emissions
- Comprehensive water recycling system

Community Empowerment

Building schools, hospitals, and infrastructure for the communities in Nabire, Central Papua, ensuring mutual prosperity.

- Built 15+ community centers
- Empowering 50+ local MSMEs
- Regular cultural preservation events

Education & Health

Providing scholarships and funding local health clinics to improve the quality of life for future generations.

- 500+ Annual student scholarships
- Constructed 3 modern health clinics
- Monthly free health check-ups
